

# Culture presentations

You will do four culture presentations on 4 different themes/topics of your choosing throughout the French 12 course. You are free to display what you have learned in any format you choose but a suggested format would be a PowerPoint presentation in which you can include photos, graphics, and other visuals to accompany the information that you will be including.

You will be presenting the information orally for these projects. You may record yourself as you talk about your topic of choice either using a separate audio file to accompany your PowerPoint slides or you may create a PowerPoint show or a movie.

Be creative and have fun!
